

Report of the visit by Astonishment Mapurisa and his wife to Worlingworth CEVC Primary School.

Pupils, parents, staff governors and members of the Parish Church were delighted to welcome Superintendent Mapurisa and his wife to their village school. The association between the Home and our school has been going now for 21 years and it was wonderful for us all to receive this visit and hear news of our friends. We had a shared lunch followed by a recent video and children had the opportunity to ask questions. We then presented a cheque for £200 which was money raised from ticket sales of our annual play. The pupils then treated our guests to some of the songs from the play, some appellation dancing and some maypole dancing (where our visitors could see the implication of someone going wrong!) I was especially pleased at the timing of this visit as I shall be leaving as Head to take up another headship locally. Astonishment and I were able to discuss how best to enhance communications and I have promised to keep in touch from my new school. It was a truly marvellous afternoon and one to cherish.
